Bio: As a child I was very adventurous, always climbing and jumping off things. I quickly moved from traditional dance classes to joining gymnastics and then tried my first trapeze class when I was around 8 and instantly fell in love with the circus. Since 2015 I have been training as an aerialist at Circus Juventas and joined their professional program in 2024. I am an artist at heart and always willing to take on new challenges and broaden my skills as an aerialist, acrobat, and dancer.
